

Amendments to the Claims

1. (currently amended) A dose form of rizatriptan comprising composition for delivery of
rizatriptan consisting of a condensation aerosol
a) formed by ~~volatilizing~~ heating a thin layer of ~~rizatriptan containing rizatriptan~~, on a solid support, ~~having the surface texture of a metal foil, to a temperature sufficient to produce a heated vapor of~~ rizatriptan and condensing the ~~heated vapor of rizatriptan~~ to form a condensation aerosol particles;
b) ~~wherein said condensation aerosol particles are characterized by less than 5% 10%~~
rizatriptan degradation products by weight, and
e) ~~the condensation aerosol has an MMAD of less than 3 microns~~ 5 microns, wherein the
dose form comprises less than 4 mg of rizatriptan.

2.-4. (cancelled)

5. (currently amended) A dose form of zolmitriptan comprising composition for delivery of
zolmitriptan consisting of a condensation aerosol
a) formed by ~~volatilizing~~ heating a thin layer of ~~zolmitriptan containing zolmitriptan~~, on a solid support, ~~having the surface texture of a metal foil, to a temperature sufficient to produce a heated vapor of~~ zolmitriptan and condensing the ~~heated vapor of zolmitriptan~~ to form a condensation aerosol particles;
b) ~~wherein said condensation aerosol particles are characterized by less than 5% 10%~~
zolmitriptan degradation products by weight, and
e) ~~the condensation aerosol has an MMAD of less than 3 microns~~ 5 microns, wherein the
dose form comprises less than 1 mg zolmitriptan.

6.-8. (cancelled)

9. (currently amended) A method of producing a dose form of rizatriptan comprising a
condensation aerosol, the method in an aerosol form comprising:
a. heating a thin layer of ~~rizatriptan containing rizatriptan~~, on a solid support, ~~having the surface texture of a metal foil, to a temperature sufficient to volatilize the rizatriptan to form a heated to~~ produce a vapor of the rizatriptan, and
b. ~~during said heating, passing air providing an air flow through the heated vapor to produce~~
to form a condensation aerosol particles of the rizatriptan comprising characterized by less than 5% 10%

rizatriptan degradation products by weight, and ~~an aerosol having an MMAD of less than 3-microns~~
5 microns, wherein the dose form comprises less than 4 mg of rizatriptan.

10.-11. (cancelled)

12. (currently amended) A method of producing ~~zolmatriptan~~ a dose form of zolmitriptan comprising a condensation aerosol, the method in an aerosol form comprising:

a. heating a thin layer ~~of zolmatriptan containing zolmitriptan~~, on a solid support, ~~having the surface texture of a metal foil, to a temperature sufficient to volatilize the zolmatriptan to form a heated to produce a vapor of the zolmatriptan~~ zolmitriptan, and

b. ~~during said heating, passing air providing an air flow through the heated vapor to produce to form a condensation aerosol particles of the zolmatriptan comprising characterized by less than 5% zolmatriptan~~ 10% zolmitriptan degradation products by weight, and an aerosol having an MMAD of less than 3-microns 5 microns, wherein the dose form comprises less than 1 mg of zolmitriptan.

13.-14. (cancelled)

15. (new) A condensation aerosol for delivery of rizatriptan, wherein the condensation aerosol is formed by heating a thin layer containing rizatriptan, on a solid support, to produce a vapor of rizatriptan and condensing the vapor to form a condensation aerosol characterized by less than 5% rizatriptan N-oxide or didehydro rizatriptan by weight, and an MMAD of less than 5 microns.

16. (new) A condensation aerosol for delivery of zolmitriptan, wherein the condensation aerosol is formed by heating a thin layer containing zolmitriptan, on a solid support, to produce a vapor of zolmitriptan and condensing the vapor to form a condensation aerosol characterized by less than 5% zolmitriptan N-oxide or didehydro zolmitriptan by weight, and an MMAD of less than 5 microns.

17. (new) A method of producing rizatriptan in an aerosol form comprising:

a. heating a thin layer containing rizatriptan, on a solid support, to produce a vapor of rizatriptan, and

b. providing an air flow thorough the vapor to form a condensation aerosol characterized by less than 5% rizatriptan N-oxide or didehydro rizatriptan by weight, and an MMAD of less than 5 microns.

18. (new) A method of producing zolmitriptan in an aerosol form comprising:
 - a. heating a thin layer containing zolmitriptan, on a solid support, to produce a vapor of zolmitriptan, and
 - b. providing an air flow thorough the vapor to form a condensation aerosol characterized by less than 5% zolmitriptan N-oxide or didehydro zolmitriptan by weight, and an MMAD of less than 5 microns.
